Areas of Interest: Web Design and Development,Data Structures & Algorithms .

Soft Skills: Problem Solving, Self-learning

EXPERIENCE

•Wev Dev Virtual Internship

Online

CodSoft

1 Aug - 31 Aug 2023

- Assisted in front-end development tasks, creating engaging user interfaces using HTML, CSS, and JavaScript to enhance the overall user experience.
- Gained hands-on experience with backend development, utilizing Node.js , MongoDB to manage databases and handle server-side scripting.

PERSONAL PROJECTS

•Blog Website

- Designed and developed a dynamic and responsive blog website utilizing HTML, CSS, and JavaScript.
- Developed a feature-rich dynamic blog website utilizing MongoDB, Node.js, Express.js, EJS, and JSON, combining my skills in backend and frontend technologies to create an engaging user experience.
- This project include user authentication, MongoDB database integration, dynamic content rendering with EJS, RESTful API endpoints using Express.js, and a responsive UI design for optimal user experience.

•Music Player

- Created a functional Music Player using HTML, CSS, and JavaScript to replicate the user interface and key features of the popular music streaming platform.
- The aim of the project was to replicate the user interface and key features of the popular music streaming platform and showcase my skills in front-end web development.

CERTIFICATIONS

- Google Ads Search Certifications.
- Machine Learning By Stanford.

POSITIONS OF RESPONSIBILITY

•Volunteer The Thespian Circle, JiIT

May 2022 - May 2023

- Collaborated with a diverse team of actors, directors, and backstage crew, fostering effective communication and teamwork to ensure the seamless execution of performances.
- Showcased leadership capabilities by guiding and motivating fellow volunteers during intense rehearsal schedules and ensuring a positive and conducive atmosphere.
- Developed problem-solving skills by overcoming challenges during performances and improvising solutions to create unforgettable experiences for the audience.
